Professional Profile

Qualified Civil Engineer with 24 years experience as a Project Director on select major projects and Estimator. 19 years as Project Manager and Estimator.

I have managed and estimated multi million dollar construction projects within the civil construction, mining and infrastructure sectors including programming, managing contractual and technical matters.

I have an excellent understanding of:

- Construct only contracts.
- Design and Construct contracts.
- Major roadworks.
- Large structure and Civil Works.
- Bulk earthworks and mining.
- Infrastructure, windfarm, power station and switch yard construction, including working in and around live operations.
- Major dam construction.
- Irrigation, pipeworks, services and pump stations.
- Integrated Management Systems; AS/NZS ISO 9001, AS/NZS ISO 14001, AS/NZS 4801 and FSC (Federal Safety Certification).

I have managed a range of Projects from the tender stage through to project completion with a focus on:

- Providing strong leadership and support to the team and monitor the team's performance against KPIs and project objectives.
- Managing the OH&S, Environmental and Quality requirements of the project with a focus on zero harm.
- Managing project performance against financial objectives.
- Evaluating project performance and implement adjustments when required.
- Ensuring projected deadlines and cost objectives are met.
- Managing client and stakeholder relationships.

Skills & Strengths

- Mentoring and directing younger engineers and Project Managers.
- Actively participation in Board governance and decision making.
- Developing and implementing technical systems.
- Client communications and documentation.
- Developing and implementing project programs and budgets.
- Time management.
- Contract negotiations.
- Development and implementation of Contract Management Plans.
- Generate and implement inspection and test plans, job safety and environmental analysis and risk assessments.
- Manage site works and subcontractors.
- Produce and agree Progress Claims and Variations.
